

WINE & SPIRITS BOTTLE SHIPPERS

Harbor Foam Wine & Spirits Bottle Shippers are manufactured to protect your wine & spirits during transportation. Whether you are driving to grandma's house or shipping across the country, your valuable bottles will be protected from damage.

The key to Harbor Foam Wine & Spirits Bottle Shippers protection is the custom manufactured expanded polystyrene (EPS) foam cradle. Each bottle is nested in a protective foam cavity that securely supports and protects the bottle from damage. The EPS foam cradle is then securely placed in a corrugated carton.

Harbor Foam offers single, double, triple and six-pack kits custom designed for bottles up to 3 1/2" diameter and 14" tall

Also, both the EPS foam and the corrugated boxes are environmentally friendly and 100 percent recyclable.

Customized packages and designs are available upon request. Please contact our packaging designers for any specialty or one-of-a-kind situation.

Shipper Overall Dimensions:
